DETAILED ACTION

Allowable Subject Matter

1. Claims 1, 8-11 and 15-25 are allowed.
2. The following is an examiner's statement of reasons for allowance: The prior art of record fail to teach or suggest alone or in combination, the limitations: "a switching circuit controllably connected to ground and a first voltage potential; a first pair of electrodes located opposite each other, connected to the switching circuit; wherein the first pair of electrodes and the second pair of electrodes are equally spaced about a center point, the second pair of electrodes biased to a second voltage potential" as claimed in claims 1 and 15; and "determining whether a desired ion beam energy is greater than a first threshold; and configuring a quadrupole lens along a beam path of the ion beam in one of a bipolar configuration or a unipolar configuration based on the determination" as claimed in claim 19. It is for these reasons in combination with all the other limitations in the independent claims 1, 15 and 19, that claims 1, 8-11 and 15-25 are allowable over prior art of record.

Conclusion

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
